OK, it's not actually a *true* story – but the 2021 film *Délicieux* is a *good* story (“93% fresh” on [Rotten Tomatoes](#)), and for the purposes of this blog it's a *perfect* story because it unfolds in the Cantal, one of the most beautiful regions in the deep heart of France. Directed by Eric Besnard, the comedy is available now to stream on Amazon Prime and YouTube Movies.
